

# SAHAR ISMAIL SULTAN

## Information Systems Graduate | AI/ML & Data | Full Stack & Mobile Development

Madinah, Saudi Arabia | +966 557915079 | saharismail2001@gmail.com | github.com/Saahar2001

### SUMMARY

---

Information Systems graduate with a First Honors, combining hands-on experience in AI/ML, Arabic speech-to-text, full stack and mobile development, data analysis, system analysis, and quality assurance. Current work includes the MIRAGE-MEM AI research fellowship project and legal-domain Arabic STT model development for Basiratk. Experienced in developing user-centered digital solutions, technical training and project mentoring, documentation, teamwork, and leadership across AI, software, IoT, and smart-system projects.

### EDUCATION

---

#### Bachelor of Information Systems | Taibah University | Madinah, Saudi Arabia | 2021 - 2026

- GPA: 4.82/5.00 | First Honors
- Relevant coursework: Systems Analysis and Design, Database Management, Data Mining and Data Warehousing, Data Analysis, Web Development, Mobile Business, Cybersecurity, Project Management, Statistics, and Entrepreneurship.

### PROFESSIONAL & RESEARCH EXPERIENCE

---

#### AI Model Development Trainee | Basiratk | Jul 2026 - Present

- Developing an Arabic legal-domain speech-to-text (STT) component, including dataset preparation and cleaning, legal terminology curation, model/output evaluation, and integration support for an AI-enabled legal platform.
- Collaborating within a small technical team on end-to-end model testing, data quality, and practical deployment requirements.

#### AI & Web Development Trainer - Part Time | Taibah Summer Program with collaboration between Ministry of Education and Uniford | Aug 2026

- Delivered hands-on training to approximately 38 students across multiple age groups in the Advanced AI Generation course, covering AI tools, prompt design, web fundamentals, and project development.
- Mentored students in idea development, prototyping, presentation preparation, and hackathon-oriented project refinement.

#### Software Development Trainee | ThinkSync | Mind Destiny Holding | Jun - Aug 2026

- Worked across UI/UX, system analysis, Next.js frontend development, Flutter/Dart mobile interfaces, quality assurance, testing, documentation, and front-end with backend integration preparation.
- Used GitHub issues, branches, pull requests, TypeScript, Tailwind CSS, shadcn/ui, Docker Compose, PostgreSQL, Redis, Prisma, NestJS, Swagger, and responsive/RTL interface practices.

#### Summer AI Research Fellow | King Khalid University | Summer 2026

- Collaborating on MIRAGE-MEM, a controlled benchmark studying Artificial Imagination Inflation in memory-augmented AI agents through repeated counterfactual simulation and source-monitoring evaluation.
- The benchmark contains 1,536 base scenarios and 10,752 experimental episodes across eight domains and seven repetition levels, measuring recall, provenance, confidence, and downstream decision contamination.

#### Full-Stack Software Development Trainee | Haraka | Jul - Aug 2025

- Built responsive React interfaces and RESTful APIs using ASP.NET Core, PostgreSQL, Entity Framework Core, JWT authentication, Git/GitHub, Docker, and deployment platforms.

### LEADERSHIP & VOLUNTEER EXPERIENCE

---

#### Public Relations Committee Leader | Hash Plus Club | 15 Jul - 15 Aug 2026

- Led committee coordination, internal communication, task follow-up, member engagement, documentation, and recognition workflows during the leadership term.

#### Information Systems Department Representative | ABET Academic Accreditation | Jan 2025

- Represented the department during academic accreditation activities and communicated student learning outcomes and departmental strengths.

#### Statistics & Translation Committee Member | Saudi Red Crescent Authority | 2019 - Present

- Supported statistics, translation, documentation, and volunteer initiatives with attention to accuracy, communication, and teamwork.

#### Tuwaiq Club Member | Taibah University | Mar 2026 - Present

- Participated in university-based technical community activities and professional development initiatives.

## SELECTED PROJECTS

---

### **Raqeeb** | Graduation Project | Best Graduation Project Award | 2026

- Developed a smart accessibility platform for elderly safety and caregiver monitoring using Flutter, Firebase, AI models, IoT devices, EEG signals, Raspberry Pi, Arduino, OpenBCI EEG, FastAPI, and real-time notifications. Implemented fall detection, emotion recognition, reminders, emergency alerts, caregiver dashboards, and lost-item assistance.

### **MIRAGE-MEM** | AI Research Benchmark | King Khalid University Summer Fellowship | 2026

- Investigates whether repeated plausible counterfactual simulation can cause memory-augmented AI agents to recall, attribute, or use non-occurring events as genuine experience. Includes 1,536 scenarios and 10,752 controlled episodes with provenance-aware evaluation.

### **Tibyan** | AI-Supported Family Platform | 2nd Place | 2026

- Designed an Arabic support platform for families of children with ADHD, including initial assessment, child progress tracking, organized tasks, reminders, trusted content, specialist consultations, and an AI assistant.

### **Zemam** | Barmajan Al-Madinah - Smart Monitoring Track | 2025

- Built an AI-powered facility management concept for smart cities using GPS-based task zoning, photo verification, dashboards, and automated task-status updates; secured 2nd Place in the Smart Monitoring Track.

## AWARDS

---

- Best Graduation Project Award - Raqeeb | Information Systems Department | 2026
- 2nd Place - Tibyan Project | Professional Program in Digital Innovation & Artificial Intelligence (Summer) | 2026
- 2nd Place - Smart Monitoring Track | Barmajan Al-Madinah for ZEMAM Project | 2025

## ADDITIONAL TRAINING

---

- AI & Data Analytics for Smart Cities | ThinkSmart and Microsoft | Jun 2025
- NexAIoT Bootcamp | Taibah Valley and Cumulocity | Sep 2025
- Robotics & IoT Training | Mashorah | Jul 2025
- Data Analysis Training | New Tech | Jul - Aug 2024

## COURSES

---

- HCIA-AI V3.0 and HCIA-Security V3.0 | Huawei
- PL-300 Preparation and AI-102 Preparation | Microsoft
- Professional Preparation Program and Entrepreneur Masterclass | Misk
- Forward Program | McKinsey Academy

## SKILLS

---

- **Programming & Databases:** Python, Java, Dart, C#, C++, JavaScript, TypeScript, SQL, HTML, CSS
- **Web & Mobile Development:** Next.js, Flutter, React.js, Tailwind CSS, shadcn/ui, ASP.NET Core Web API, FastAPI, REST APIs
- **AI, Data & Analytics:** Machine Learning, Arabic STT/Speech Processing, AI Models, Digital Twins, Data Analysis, Power BI, Jupyter Notebook, Google Colab, Data Visualization, Statistical Analysis
- **Backend, Cloud & DevOps:** Firebase, Docker, PostgreSQL, Redis, Prisma, NestJS, Azure, AWS, Oracle Cloud Infrastructure
- **Tools & Platforms:** Git, GitHub, VS Code, Android Studio, Postman, Swagger/OpenAPI, Figma, Microsoft Office
- **IoT & Smart Systems:** Raspberry Pi, Arduino, OpenBCI EEG, Cumulocity IoT
- **QA & IS Competencies:** Requirements Analysis, SDLC, API Testing, Quality Assurance, Documentation, UI/UX, Responsive Design, RTL Interfaces, Troubleshooting
- **Professional Skills:** Leadership, Training & Facilitation, Teamwork, Communication, Critical Thinking, Problem Solving, Time Management, Adaptability, Self-Learning
