

SAHAR ISMAIL SULTAN

Information Systems Graduate | Data Analysis | AI/ML | Mobile & Web Applications

Madinah, Saudi Arabia | +966 557915079 | saharismail2001@gmail.com

PROFESSIONAL SUMMARY

First-Class Honors Information Systems graduate with GPA 4.82/5.00 and hands-on experience building AI-enabled, data-driven, IoT, and mobile solutions. Skilled in Flutter, Python, SQL, Firebase, FastAPI, REST APIs, Power BI, cloud platforms, and software quality practices. Delivered award-winning smart accessibility and smart city projects involving AI models, dashboards, emergency alerts, GPS-based workflows, Raspberry Pi, Arduino, and EEG signal integration. Seeking cooperative training or entry-level opportunities in Information Systems, Data Analysis, Software Development, QA, AI, or Digital Transformation.

EDUCATION

Bachelor of Science in Information Systems | Taibah University | Madinah, Saudi Arabia | 2021 - 2026

- GPA: 4.82/5.00; First-Class Honors.
- Relevant coursework: Data Analysis, Database Management, Systems Analysis and Design, Data Mining and Data Warehousing, Web Development, Mobile Business, Operating Systems, Networking, Project Management, Cybersecurity, Entrepreneurship, and Statistics.

EXPERIENCE

Data Analysis Trainee | New Tech | Jul - Aug 2024

- Completed practical training in data analysis, data cleaning, exploratory analysis, visualization, and insight reporting.
- Applied analytical thinking to interpret datasets, summarize patterns, and present findings in a clear business-oriented format.

AWS Bootcamp Developer | TawasulThon | Jan 2025

- Strengthened cloud development fundamentals, including application deployment concepts, API integration, and scalable service design.
- Collaborated in a fast-paced innovation environment to transform a problem statement into a technical prototype and pitch-ready solution.

Statistics and Translation Committee Member | Saudi Red Crescent Authority | 2019 - Present

- Supported committee work related to statistics, translation, documentation, and volunteer initiatives over multiple years.
- Demonstrated communication, accuracy, teamwork, and time-management skills in a public-service environment.

Information Systems Department Representative | ABET Academic Accreditation | Jan 2025

- Represented the Information Systems Department during academic accreditation activities and communicated student learning outcomes, project experience, and departmental strengths.

Technology Training and Community Involvement | Taibah University, Mashorah, Haraka, TEKnology, Tuwaiq Club, ThinkSmart, Microsoft, Taibah Valley, Cumulocity | 2025 - 2026

- Completed and participated in programs covering artificial intelligence, data analytics for smart cities, processor and robotics, 3D printing, IoT, cloud platforms, and emerging technologies.
- Built continuous learning habits through technical communities, bootcamps, and hands-on technology initiatives.

PROJECTS

Raqeeb | Graduation Project | 2026

- Developed a smart accessibility mobile platform to support elderly safety, independence, caregiver monitoring, and emergency response.
- Integrated Flutter, Firebase, AI models, IoT devices, EEG signals, Raspberry Pi, Arduino, OpenBCI EEG, FastAPI services, and real-time notifications.
- Implemented fall detection, emotion recognition, reminders, emergency alerts, caregiver dashboards, and lost-item assistance; project received Best Graduation Project recognition.

Zemam | Barmajan Al-Madinah - Smart Monitoring Track | 2025

- Built an AI-powered facility management platform for smart cities using GPS-based task zoning, photo verification, dashboards, and automated task status updates.
- Improved operational accountability by linking field evidence, task assignment, and real-time monitoring workflows; secured 2nd Place in the Smart Monitoring Track.

Mersal Platform | TawasulThon | 2025

- Designed a secure confidential correspondence platform using AI, blockchain, encryption, and digital signatures to improve privacy, authenticity, and traceability.
- Contributed to AI-enabled classification and communication workflows for secure digital document handling.

Jawlan App | BarmajaTech | 2024

- Designed a smart tourism application for Al-Madinah that provides personalized recommendations, interactive maps, and real-time visitor information.

AWARDS AND HONORS

- First-Class Honors - Bachelor's Degree in Information Systems, GPA: 4.82/5.00.
- Best Graduation Project Award - Information Systems Department, organized by the Department of Information Systems and the College Vice Deanship for Graduate Studies and Research.
- 2nd Place - Smart Monitoring Track - Barmajan Al-Madinah for ZEMAM Project.

COURSES AND CERTIFICATES

- IBM: Data Analysis, Cybersecurity, and Artificial Intelligence courses.
- Huawei: HCIA-AI V3.0 Course and HCIA-Security V3.0 Course.
- Microsoft: PL-300 Preparation and AI-102 Preparation.
- Oracle: OCI, AI, Multicloud, and Data training.
- Misk: Professional Preparation Program and Entrepreneur Masterclass; McKinsey Academy: Forward Program.
- Google: E-Marketing Course; Tawjeeh Academy: Graphic Design; Saudi Red Crescent and LAZIM: Paramedic Certificates.

TECHNICAL SKILLS

Programming Languages: Python, Java, Dart, C#, C++, JavaScript, TypeScript, SQL, HTML, CSS, Kotlin

Mobile and Web Development: Flutter, React.js, Node.js, Express.js, ASP.NET Core Web API, FastAPI, RESTful APIs

Data, AI, and Analytics: Data Analysis, Machine Learning, AI Models, Power BI, Google Colab, Jupyter Notebook, Data Visualization, Statistical Analysis

Cloud, Databases, and IoT: Firebase, Azure, AWS, Oracle Cloud Infrastructure, Cumulocity IoT, Raspberry Pi, Arduino, OpenBCI EEG

Tools and Platforms: Git, GitHub, VS Code, Android Studio, Postman, Swagger/OpenAPI, Docker, Figma, Microsoft Office

Quality and Professional Skills: QA mindset, requirements analysis, problem solving, leadership, teamwork, critical thinking, productivity, self-learning, adaptability, time management
